PLACE
ACQUIRED [REDACTED] 25X1A

NO. OF ENCLS.
(LISTED BELOW)

25X1A

DATE OF INFO. [REDACTED] 25X1A

25X1x

SUPPLEMENT TO
REPORT NO.

1. Location: Institutskaya (streetcar line), near the junction of the Novoproleshnaya, KUSHELEVKA/BELSHAYA raion, LENINGRAD (30°17'00"E/59°59'N).
2. Activities: German engineers of the Zeiss Jena Plant worked on television problems in the same building in which they were billeted.

25X1X [REDACTED] Comment:

The deportation of German experts of the Zeiss Firm and the Osram and AEG Firms to LENINGRAD optical and precision-mechanical plants was confirmed. * The German experts were distributed to various LENINGRAD plants, most of them to the Svetlana Plant, some to the "Elektrik", "Radio", and "Institut" installations. **

25X1X All Zeiss experts [REDACTED] stated that they were engaged in television research work. This term, however, refers particularly to radar locating and sighting devices. It is believed that FRYAZINO near MOSCOW is another important place where reported Zeiss engineers are working on television and remote-control problems.
